You can choose the superannuation fund or retirement savings account (referred to below as superannuation funds) to which your employer will make future superannuation guarantee contributions (9%).

Option 1:

You do not have to choose a fund.

If you do not make a choice, your employer's contributions will be paid into the fund that your employer has chosen (see Part A on the reverse side of this form). This may not be the same as your current fund.

Your employer's chosen fund may be suitable for your needs. You can choose a different fund later if you like.

If you do not want to choose a fund, you do not have to complete this form.

1 Your employer is not liable for the performance of superannuation funds that you choose or they choose on your behalf.

3 TIPS FOR COMPARING FUNDS

Fees

Most funds charge fees. Differences in the fees funds charge can have a big effect on what you may have to retire on. This effect may be more than you think and for this reason you need to consider what fees are being charged. For example, your final return could be reduced by up to 20% over 30 years if your total amount of fees and costs are 2% rather than 1% (eg, from \$100,000 to \$80,000). Some funds may also charge an exit fee if you leave the fund.

Death and disability insurance

Your current fund may insure you against death or an illness or accident that makes you unable to return to work. Other funds may not offer insurance, or you may have to pass a medical examination before they cover you. Check if you'll be covered in any new fund, and the costs and amount of cover, before leaving your current fund.

Option 2:

Choose a fund.

You can choose the superannuation fund where you want your future employer contributions to be paid.

Your employer is only required to accept one choice every 12 months.

Step 1

Gather information - work out what's best for you

You will need to find out what superannuation options are available to you.

Find out about the features and benefits of your current fund, the fund chosen by your employer and any other funds you are considering. Your current fund may be different to the fund chosen by your employer.

1 The tips section highlights key issues you should consider when comparing funds.

Step 2

What do I need to tell my employer?

Give your employer details of your chosen fund by completing **Part B** of this form or by a written statement including the necessary information. This information may be provided by your chosen fund.

Part A shows details of your employer's superannuation arrangements. This includes the fund that your employer has chosen to make all future superannuation guarantee contributions to. If your employer has changed funds recently, the previous fund will also be shown. You may choose to remain in this previous fund.

Step 3

What happens to any superannuation I have in existing funds?

Any money you have in existing funds will remain there unless you make arrangements to transfer it (roll over) to another fund. Check the impact of any exit fees or benefits you may lose before leaving the fund. Your employer cannot do this for you.

Investment choice

Some funds let you choose where the fund will invest your super. Some choices offer higher returns, but with a higher risk that investments may go down as well as up. Other choices offer greater security but with lower expected returns. Choose the level of risk and return that you are comfortable with.

Investment performance

Superannuation is a long term investment for your retirement, so its investment performance needs to be judged over the long term. Short term performance, whether good or bad, may not be repeated. There is no guarantee that a fund that has performed well in the past will do so in the future.

The information you'll need to make these checks is in each fund's product disclosure statement which you can get from the fund. For further information on choosing a fund go to the website www.superchoice.gov.au or phone **13 28 64**.
